Outcomes from Brazil Mission -- Brazil MOU signing

- The Administrator just returned from a successful mission to Brazil. During that visit, AAW signed an MOU with the Ministry of Environment for cooperation on several topics, including marine litter best practices, technologies for sewage treatment, and solid waste management/recycling/food waste reduction.
- He also visited Manaus in the Amazon Region to get a better understanding of environment and development challenges unique to the Amazon, a region that is receiving elevated attention from the Ministry of Environment
- We don't anticipate any major asks on OCSPP issues for initial work under the MOU.
